General Guidelines

Spirit Tape Scores will carry over to the final score at College Dance Team Nationals. There is a possible of 15 points to be earned in the three sections.

The first section is **Community and Campus Involvement** which includes any event that the dance team participates in that is non sporting events. This can include parade, pep rallies, community service performances, campus tours or any other “involvement” your dance team has on campus.

The second section being scored is **Halftime/Entertainment** which will include any performance that is used for entertainment purposes for the University of College. This can include time outs as well as halftime performances. Dance Choreography must complement and be visual to the audience at the event it is being performed at.

The final section is **Spirit Raising Techniques** which is based on how well the dance team can uses their poms, band, cheerleaders or other actions that can be visible in a stadium or arena.

The Spirit Tape will not be scored on how a crowd “reacts” to the dance teams performances or actions but by how well the dance team executes dance choreography that complements the event.

The time length of the Spirit Tape should not exceed **1 minute and 30 seconds**. Please split the three sections up evenly between 1:30 to ensure each section have the same amount of time. This will also give the opportunity for each section to score the full 5 points that it is designated.
